DEDICATION

We, the class of 1962, dedicate this annual to the seventy-five members and coaches of the Romney High School 1962 football team. Through its spirit and effort this team is recorded in the annuals of our school as one of the most outstanding Elevens in our history.

The lessons learned on the football fields have been carried over into the good citizenship of many who have gone out before you from R.H.S. into adult life. We are proud of you. Continue to express the motto "What Do You Say! All the Way?" for your goals in the Game of Life.

ADMINISTRATION

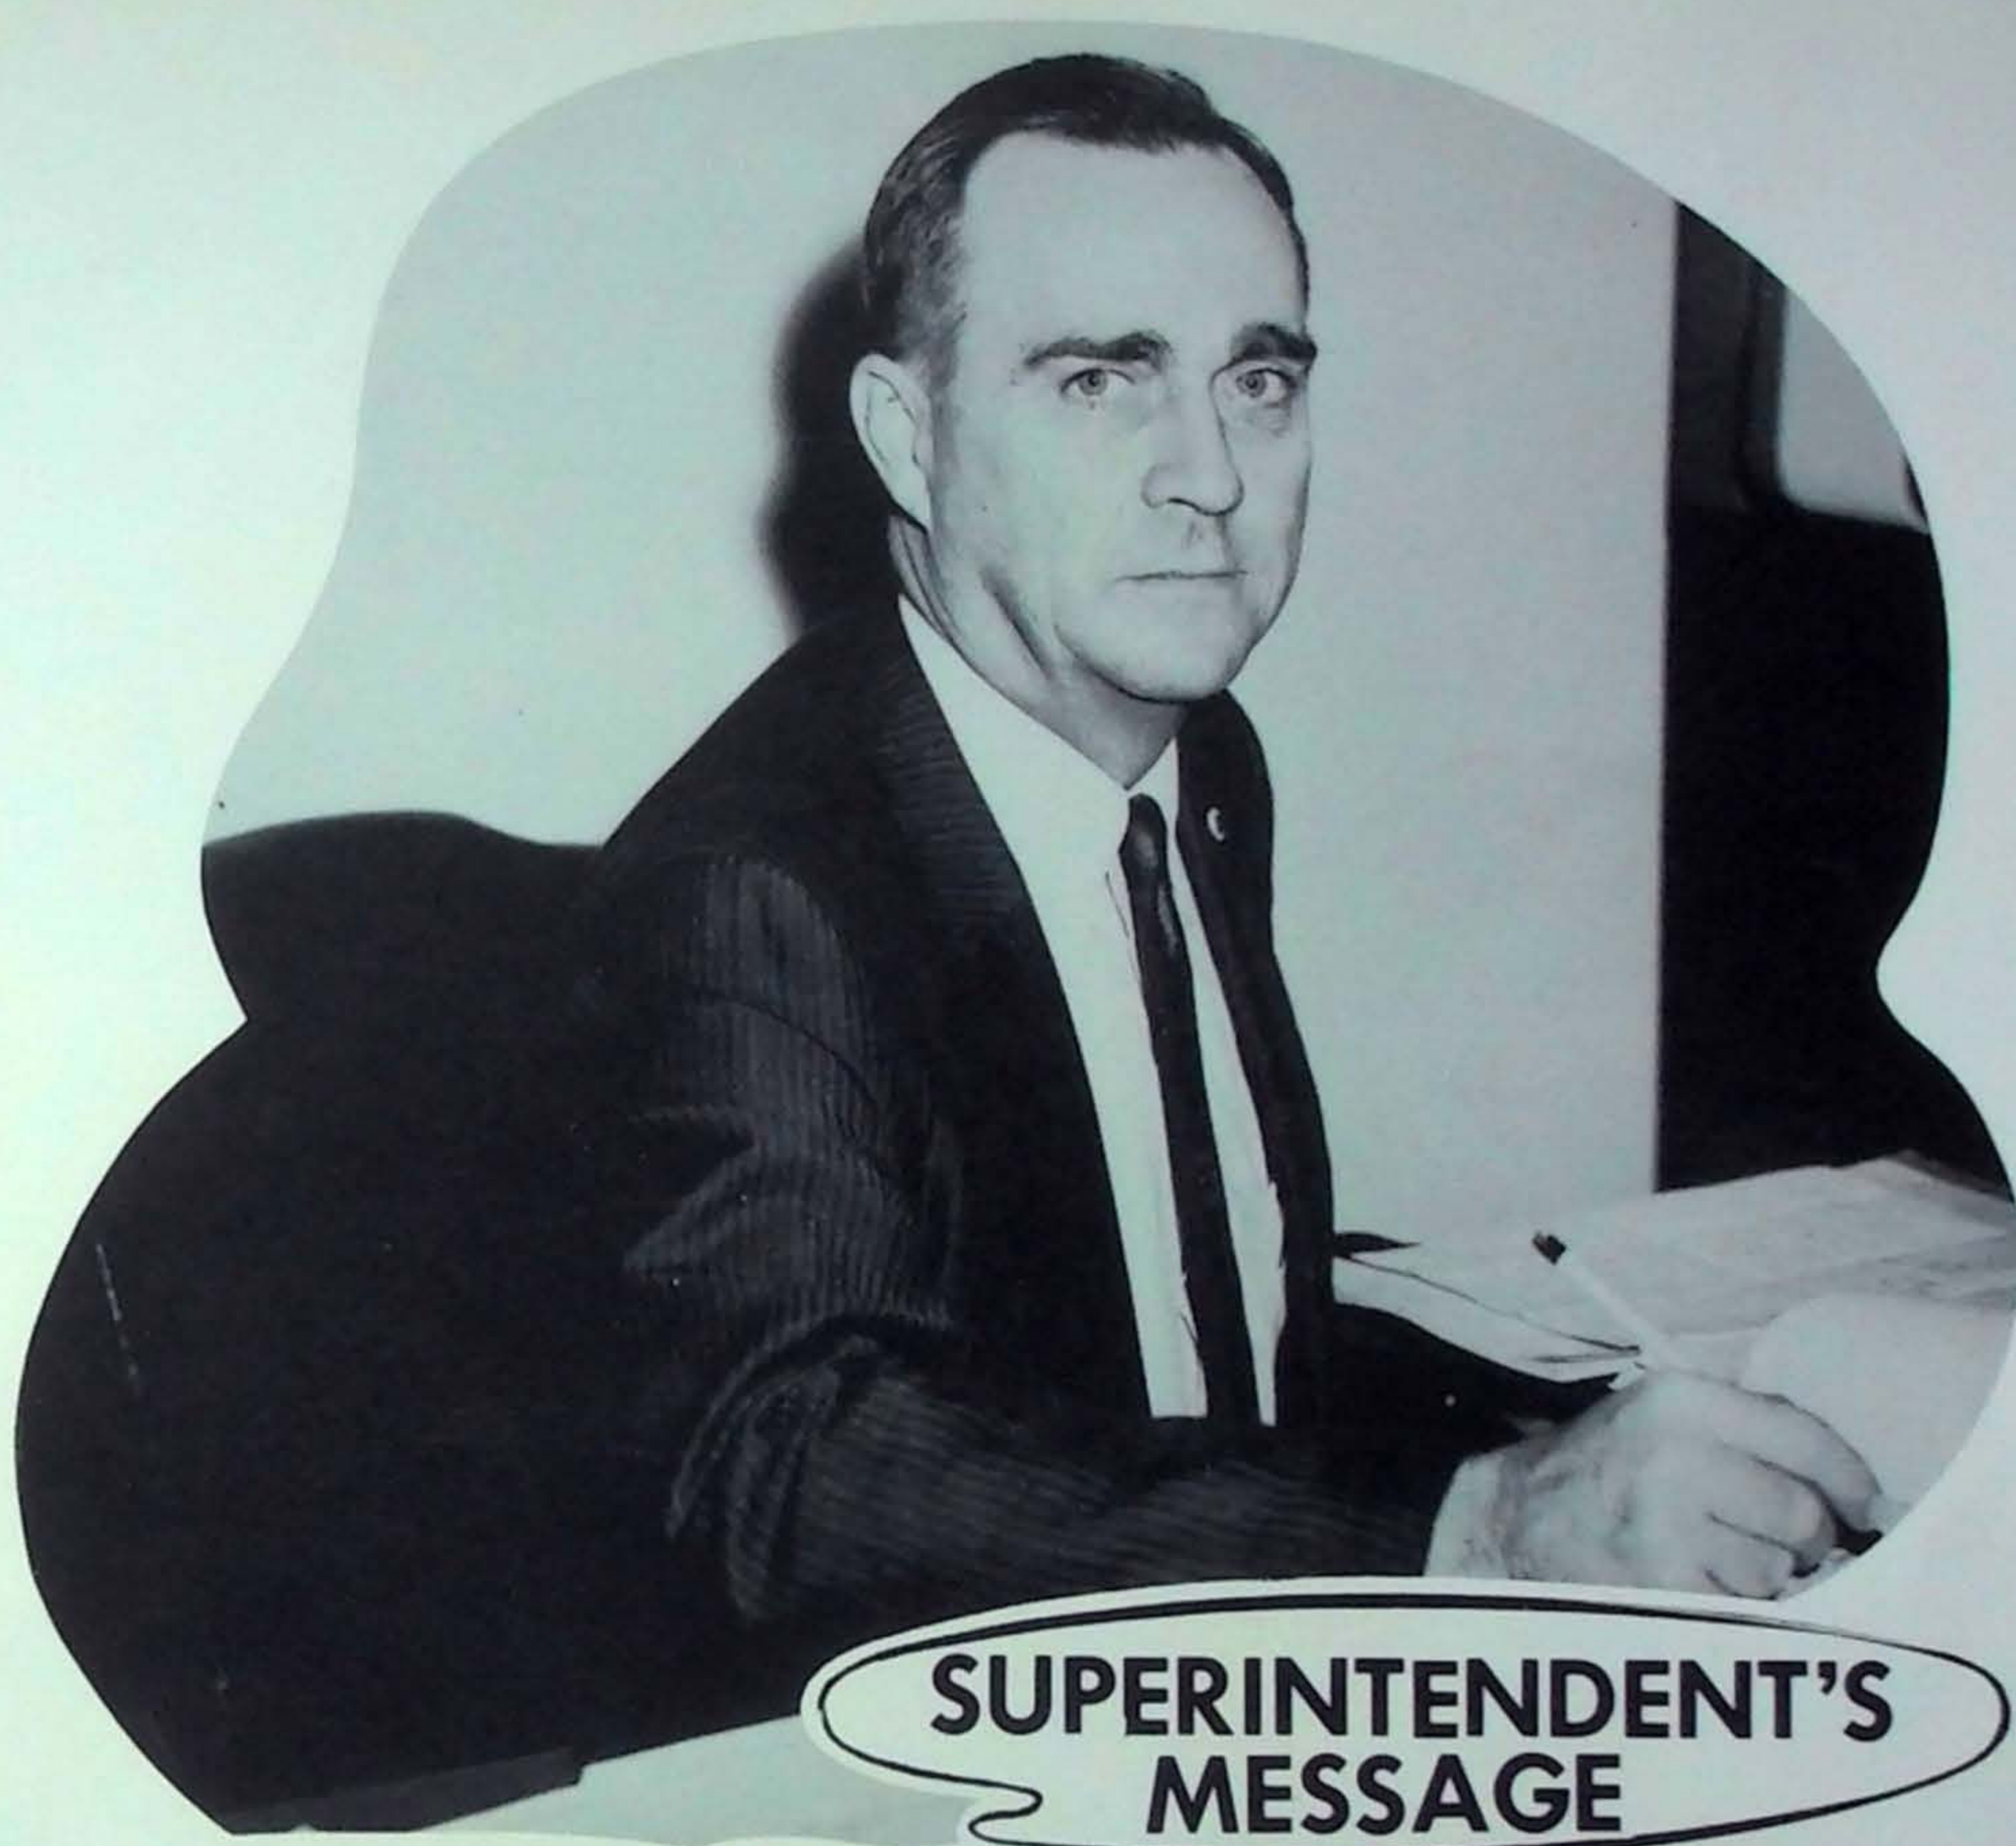

To the Graduating Class of 1961-62:

The entrance to success is by the gate of contribution. Everything that is taken out, someone has put in. Life and liberty are two of the many contributions you have taken freely of. Think about you. Debt to God, Country and your fellow man. Think how best you can contribute, then plan your life accordingly.

Robert H. Buland
Principal

Best wishes to the class of '62. Remember that what
lies behind us and what lies before us are tiny matters
when compared with what lies within us.

Chapter 8 THE BEGINNINGS OF GOVERNMENT IN THE UNITED STATES

The roots of American government reach deep into the past. Our system of government did not suddenly spring into being as at the wave of some political magician's wand. Nor was it pulled out of thin air by the

Our English Heritage. The French, Spanish, Dutch, Norwegian, and other Europeans settled in parts of what was to become the United States. But it was the English who came in the largest numbers. And it was the English who came to control the thirteen colonies that stretched for 1,500 miles along the Atlantic seaboard.

These early pioneers who cleared the wilderness and brought all the Indians had to look out for their own future in the New World. But they came here in search of freedom from

Founding Fathers, at Philadelphia in the summer of 1787. But they had developed through long years of experience. We shall now trace the growth of these beginnings.

The Colonial Period

From the first, the English settlers in North America were not content to be ruled by a distant government. They brought with them the idea of self-government. And they had been working for it for centuries.

SETTLERS AT WORK

Early Americans had to live together in harmony, or they would not survive. They had to build a government in order to live. The beginning of our government began.

of which are to be found today in our laws, customs, and institutions. And all of these were well known to the English settlers in America.

The first American colonies were founded in 1607. They were the first of many that were to follow. They were the first to bring with them the idea of self-government.

that each man has certain rights that government cannot ignore or take away. These great principles of freedom were proclaimed in such historic English documents as the Magna Carta in 1215, the Petition of Right in 1628, and the Bill of Rights and the Act of Toleration of 1689.

The concept of Representative Government. A third vitally important concept brought to America by English ships was that of representative government. For centuries there had been something in England the
